

# E-Commerce Solutions Overview

## Online Account Access – shop.glasupply.com

24/7 self-service on your computer, tablet, or smartphone. Place orders, check product pricing and availability, view open orders, invoicing and more—all in real time.

Designed to help boost productivity—by reducing the time spent handling order entry, checking inventory, or reviewing submitted orders.

Search our product file, add items to your shopping cart, and submit your order. While shopping, you can view product information, create product groups, edit shipping information, and view account information.

Our shop website is mobile friendly so you can access all these great features from any smartphone or tablet device. True 24/7 account access.

## Electronic Business – Catalog Punch Out

Great Lakes Automation Supply has the capability to connect your procurement system to shop.glasupply.com. This allows you to populate your requisitions and purchase orders. Individual items can be searched for and added or commonly ordered items can be retrieved from the **My Product Groups** feature. You can review your pricing and availability, look up product information and utilize all other features.

Great Lakes Automation Supply can also provide you with an e-file of catalog items if your procurement system does not have the ability to Punch Out to shop.glasupply.com. We can syndicate our e-catalog data for uploading to your e-catalog.

## Electronic Business – EDI and XML

Great Lakes Automation Supply is capable of utilizing EDI, XML or other proprietary data formats to conduct day-to-day business transactions with our customers.

With electronic business documents being a system-to-system exchange, there are virtually no errors, making the processing of business documents very efficient. As electronic information is sent to our business system directly, Great Lakes Automation Supply personnel are available to quickly handle the transaction.

## Great Lakes Automation Supply OE Touch App

All of the functionality and account access you enjoy on our Shop website... with the on-the-go accessibility of an app.

- Search for products by Keyword, UPC, Manufacturers Part Number, or your internal part number
- Ability to scan product barcodes utilizing the camera on your phone
- Access rich product data – Pictures, Submittal Sheets, IOM Manuals, and more on the go!
- Manage your own Product Groups for easy access to frequently ordered items
- Use Reorder Pad feature to review and reorder items purchased by your company in the last 12 months
- Email product info or order details right from the app – to yourself, your colleague, or boss
- Review Open Quotes and Open Orders
- View your account balance and open invoices
- Search order history by our order number or by your PO
- Features can be restricted on a user-by-user basis for security
- Available for both Apple iOS and Android devices. Search for "Great Lakes Automation OE Touch"

## StockRoom Management App

Managing your inventory is managing your dollars. Being able to know what items you have on hand and what items you need to replenish, effectively minimizes downtime by having the needed item for repairing a down machine or keeping a project moving forward.

Whether it is Vendor Managed Inventory or self-managed, the Innovo Stockroom Manager App may be the answer for you.

- Storeroom and crib inventory management in an easy-to-use app
- Create and Submit Orders for inventory replenishment
- Scan product barcodes using the camera on your phone or with an external Bluetooth I/R scanner
- Search for product based on Customer Part numbers or product description
- View your Storeroom product list and add items to your order from it
- Update your part number and location for products
- Replenish inventory based on inventory counts tied to Min/Max
- Available on Apple iOS only. Search for "Innovo Stockroom Management"
